about Active Frames

ACCESSORIES

Each frame comes with *:

- **Hard Case**
- **Microfibre bag**
- **Clear silicone retainer band**

Ref. 10006

Spare silicone retainer bands are available

BABY SOFT 0-3 YEARS

SOFT, COMFORTABLE, SAFE

CE certification
the frame is safe in case a child chews it.

The frame is made of soft rubber, the bridge is centred and splayed.

Wrap-around sides
with a silicone retainer band to maintain the correct optical centres.

The groove is designed for high power lenses to avoid altering the curvature of the front. Ideal for occlusive treatments.

SAFETY

The frames 0-3 years are compliant with the following EU norms regarding safety of toys: EN 71-3: 1994/A1: 2000/AC:2000/AC:2002 "Migration of material" and EN 71-9 "Organic chemical compounds: monomers, solvents, plasticizers". This means that the frame is safe in case a child chews it. In addition it has been dermatologically tested (it does not cause skin irritation). The groove is deeper to prevent the lens from coming out in case of accident.

CENTROSTYLE WARRANTY

Centro Style offers a 2 year warranty for your customer.

BABY SOFT 0-2 YEARS

One-piece soft rubber frame without metal parts and latex.
Supplied with silicone retainer band.

Active Soft

Soft Trial Frame for Baby 0-3 YEARS

The “Soft Trial Frame” has the same features as the other Active Soft frames, in order to grant the best possible visual comfort during eye examination.

CE Certification

Frame without any metal parts and latex.

- The **wrap-around sides** and the **adjustable silicone tube**, keep the frame close to the face.
- **Three-lens** holder suitable for standard \varnothing 38 mm, trial set lenses. Determination of the astigmatism axis is according to the **TABO system**.
- The **bridge** is centred and splayed, thereby helping to maintain the correct optical centres.

BABY ONE 2-5 YEARS

SAFE, FLEXIBLE, RESISTANT

Dynamic Grip Curve allows a higher flexibility of the side without altering the curvature of the front and the correct position of the optical centres.

CE certification
the frame is safe in case a child chews it.

The deeper groove prevents the lens from coming out in case of accident.

The wrap-around sides and the silicone retainer band keep the frame close to the face.

CENTROSTYLE WARRANTY

Centro Style offers a 2 year warranty for your customer.

SPRING COLLECTION 2-8 YEARS

SOFT, COMFORTABLE, LIGHTWEIGHT

● **Designed** to fit the child's face and to maintain the correct optical centre positions thanks to the centred bridge and the special "spring" design of the sides. Cold glaze only. Do not use alcohol, acetone, solvents or thread locks.

● **Lightweight frame** of Grilamid TR90 with double injection technology on the sides for better comfort.

Ⓒ **CE Certified** product complying with the current European regulations.

CENTROSTYLE WARRANTY

Centro Style offers a 2 year warranty for your customer.

MYOPIA MANAGEMENT

Myopia is becoming increasingly common among children due to both hereditary factors and increased time spent in close-up activities with the use, above all, of digital devices. It is estimated that 5 billion people, half the global population, could be affected by myopia in 2050.

Myopic progression control lenses are used for children aged 6 to 18 years. The defocus in the periphery, created by this special type of lens, reduces the elongation trigger associated with uncorrected myopia or traditional spectacle lenses.

The most appropriate models for fitting this type of lens are highlighted with the 'Myopia Control' logo both in the catalogue and on the demo lens.

Frames suitable for mounting children's
myopia management lenses.

Tests carried out by the **Prontottica laboratory**

HYPOALLEGENIC OCCLUDERS FOR FRAMES

For orthoptic therapies of amblyopia and strabismus - In fabric

BABY AND JUNIOR

DIMENSIONS: 105x50 mm (Baby)

DIMENSIONS: 118x60 mm (Junior)

Occluders for children and adults frames made of high quality ecological fabric, reusable and washable.

They are made with certified materials, hypoallergenic and breathable, and eco-friendly. The fabric is printed using inks and water based dyes.

They are designed to comfortably fit on any type of frame and provide a total occlusion, effective for the treatment of amblyopia (lazy eye).

These occluders offer the perfect combination of comfort, style and fit to make treatment time fun and effective for children, and elegant for adults.

Most occluders have graphics suitable for both the right and left eyes.

HYPOALLEGENIC OCCLUDERS WITH ELASTIC

For orthoptic therapies of amblyopia and strabismus - In fabric

CHILDREN

DIMENSIONS: 70x55 mm

Occluders for children and adults with elastic to place directly on the eye, usable even without frames.

Entirely made of breathable certified fabric, safe in contact with the skin to ensure a soft and enveloping fit around the eye. Reusable and washable.

Ideal for occluding one eye: they are kept in position with a quality elastic, latex-free, which makes them comfortable to wear for long periods.

The occluders have a black lining to exclude most of the light and a reinforced fabric core that keeps its shape even after the washing.

These occluders have colorful and fun drawings graphics suitable for both the right and left eye.
