B I O B A S E D E Y E W E A R
FRAME WITH MAGNETIC CLIP-ON

Neyeture is a Centro Style brand **committed to the sustainability of the materials used**, from the product to the packaging.

The new Centro Style brand dedicated to **globetrotters and consumers oriented to eco-friendly products** and basing their purchasing choices on their environmental impact.

Neyeture is a complete range of **frames made of Rilsan with magnetic clip-on** to meet customer's needs.

Discover the whole collection of Centro Style frames with magnetic clip-on.

C O R P O R A T E S U S T A I N A B I L I T Y

Centrostyle's commitment to increasing conscious **environmental sustainability** continues in our packaging department. To ensure the integrity of our frames during shipments, we place them in **100% biodegradable and compostable polybags** that you can easily dispose of as well as the air filler that protects the products inside our cardboard packages. The cardboard packs are sealed with **paper tape** to facilitate separate collection, which can be done entirely in the paper circuit.

Finally, at our **headquarters in Vedano Olona, we gave up plastic bottled water** in favour of **zero km filtered water**. In the vending machines, the accessories are **Plastic Free** and the drinks are available in cans, Tetrapak or Brick to **discourage the use of disposable PET**.

In addition, we joined **Eco Miles** to reduce the carbon footprint of all company cars by supporting **WeForest**, an environmental conservation organization that sponsors tree planting in Zambia. Finally, from 2020 onwards, we have chosen **to introduce only hybrid company cars**.

CENTRO STYLE S.P.A.
Stai contribuendo a far crescere*
85 ALBERI
nella Foresta di Desa'a in Etiopia e nella foresta di Katanino in Zambia.

Si stima che in 50 anni, questi alberi assorbiranno **13 kg di CO₂**.
Nel 2021 e nel 2022, hai anche compensato altri 10 kg di CO₂ grazie a progetti in Brasile e Perù.**

*Questo rappresenta il tuo contributo su un totale di 1.330.682 alberi nella regione di Katanino e Desa'a durante il biennio 2021-2022.
** Oltre al riforestamento, i crediti di carbonio si acquistano con progetti volti al risparmio di emissioni di anidride carbonica certificati da Voluntary Carbon Standard (VCS).

OUR PROJECT

From the **attention to sustainability** comes the **inspiration** that **gave birth** to every detail of the **project Neyeture**.

Frame with magnetic clip-on

The front and the sides of the frame are made of Rilsan, a **biobased polyamide** derived from castor oil for over 45%. Less than 0.6% of plastic in the world is biobased (**source: European Bioplastics - 2020**) and with this choice, we want to support the sustainable use of this material.

Microfibre

70% of the fabric is made from recycled plastic PET bottles. Due to this eco-friendly choice, we have **reduced CO2 emissions** of the manufacturing process and the use of petroleum-based resources, **by giving a second life to plastic**.

Case

Both **the outer and the inner part** of Neyeture spec case is made of **100% RPET recycled plastic bottles**. To give a new life to a disposable product represents our sustainable choice.

Magnetic clip-on case

35% of the **outer shell of the case is made from Rilsan**, the same biobased polyamide derived from castor oil of which Neyeture frames are partially composed.

OCEAN'S DAY

SPECIAL PARTNERSHIP

Having sponsored the Educational Workshop in 2020 at the School of Design at Politecnico di Milano, dedicated to the design of glasses and related accessories with 100% sustainability with the Masters students, **Neyeture continues its commitment to spreading the culture of sustainability.**

Throughout **2021 and 2022, Centro Style**, with the sale of Neyeture eyewear, will support **Blue EcoLine's River Cleaner project**. The **River Cleaner** project plans the **creation this year in Italy of the first fully automated machine, powered by energy produced from renewable sources, to collect plastic from rivers.**

RIVER CLEANER

In 2023, the partnership with River Cleaner will be reactivated exclusively on two models of frames dedicated to the celebration of the **Ocean's Day**.

By purchasing the **Ocean's Day Capsule Collection, Centro Style will support the River Cleaner project** in Grosseto (Tuscany - Italy). The plant will potentially recover up to 25,000 kg of plastic each day, preventing it from spilling into the seas and fragmenting into microplastics and contributing to environmental protection. **A virtuous circuit that could really improve the world.**

To discover all the details of the collaboration **each pair of glasses dedicated to the celebration of Ocean's Day will be supplied with a flyer, made of ecological paper derived from the surplus algae from endangered lagoon environments combined with FSC®** (LifeGate's Zero Impact®) fibres.

A close-up portrait of a woman with long, wavy red hair and freckles. She is wearing dark, wrap-style sunglasses with a colorful beaded chain attached to the right temple. She is also wearing a vibrant, multi-colored floral patterned scarf around her neck. Her outfit consists of a white collared shirt and a light beige trench coat. The background is a soft-focus outdoor setting with autumn leaves and rocks.

FOR YOUR COMMUNICATION

For those who use microfibre as a marketing vehicle we offer the possibility to customize the green MacroClean microfibre with graphics as desired.

MacroClean[®]

GREEN MICROFIBRE WITH LOW ENVIRONMENTAL IMPACT

It is the MacroClean variant made in Rpet.

- The fabric is made with 70% recycled PET bottles.
- The cloth retains all the properties of the classic MacroClean.
- By choosing this cloth, CO₂ emissions are reduced during the production process as well as lowering the use of resources derived from oil.

- Send us the image and your logo in high definition and our graphic team will propose a customized solution (code for order entry: Ref. **73000DGIG MacroClean[®] GREEN** size 15x18 cm - 100 pcs.)
- Or choose from the **BOOK2** catalogue, created by Centrostyle, the images that most represent your customers (code for order entry: image code + **MIG** (example **49077MIG**))

49077MIG

49078MIG

49079MIG

49129MIG

49139MIG

49140MIG

Some examples of images from **Book 2**

To present the product inside **the point of sale**, the project Neyeture respects the brand philosophy in every detail.

Box and showcards

They are made with **ecological paper derived from excess algae** of risky lagoon environments combined with FSC® fibers. Moreover, the emissions generated to produce it have been compensated with **activities aimed at absorbing CO2 into the atmosphere** shown by the LifeGate Impact Zero® brand.

Window display

For a unique presentation of the product, Neyeture collection comes with **a tree-shaped window display made of FSC® cardboard** made of recycled cardboard or pure cellulose paper joined with water-based glue and wooden inlays.
